

Proactive Integration of Mental Health Care in Medicine (PRIME Medicine): Pre-implementation survey

We would like to collect information about your experience in caring for patients with psychiatric conditions or challenging behaviors on hospital medicine units 6-12, 6-16, and 6-36 PRIOR to the start of PRIME Medicine.

Your participation in this survey is voluntary, and if you choose not to participate your job will not be affected. Your responses will remain confidential and be used only for this quality improvement project. Completing this questionnaire will serve as your consent to take part in the survey portion of the quality improvement project.

Our goal is to establish a baseline for this quality improvement project, so we encourage honest responses.

Thank you!

Please indicate the degree to which each of the following statements reflects your experience on hospital medicine floors 6-12, 6-16, and 6-36 PRIOR to the introduction of PRIME Medicine.

	Strongly agree	Somewhat agree	Neither agree nor disagree	Somewhat disagree	Strongly disagree
1) I know when to ask for outside help (e.g. physician, psychiatric nurse, other) for a patient with psychiatric issues or disruptive behaviors	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
2) I call for outside resources (e.g. physician, psychiatric nurse, other) when I recognize a patient's behaviors are escalating beyond my capabilities	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
3) I am confident that help is available to me when I need assistance with patients who have psychiatric or behavioral issues	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
4) Hospital resources are readily available to me when I need assistance with psychiatric or behavioral health issues	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
5) I believe that patients with psychiatric or behavioral issues are well-served on these units without endangering the safety of care providers	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
6)					

- Staff on these units are able to bring up problems and tough issues related to behaviorally-challenging patients
- 7) On these units, caring for patients with disruptive or challenging behaviors takes so much time that it gets in the way of doing a good job
- 8) On these units, providers caring for behaviorally-challenging patients are overly stressed
- 9) I have felt burned out from caring for patients with psychiatric illness or challenging behaviors
- 10) I have worried that working with patients who have psychiatric conditions or challenging behaviors has been hardening me emotionally

We would request the following information so we can tailor our quality improvement project accordingly. Your responses will NOT be linked with your personal identity but reported as a group.

- 11) What is your role on hospital medicine? Attending
 Physician assistant
 Nurse practitioner
 Other/decline to answer
-
- 12) What is your primary unit? If you are not assigned to a primary unit or if you rotate across units regularly, please select all that apply. 6-12
 6-16
 6-36
-
- 13) What is your gender? Male
 Female
 Other/decline to answer
-
- 14) We would like to match your responses to this survey with one you may complete after PRIME Medicine has been implemented. Please create a unique identifier using the following: first 2 letters of your mother's maiden name and the last 2 numbers of your cell phone number. For example: ma34.
- _____
-
- 15) Finally, in the space to the right, please share any additional comments you have about mental health care needs on these hospital medicine units. We also welcome any suggestions you may have.
