On behalf of the Academy of Psychosomatic Medicine, we're happy to welcome you to APM 2016 in Austin, Texas, the Live Music Capital of the World, a city where the BBQ is so good some places don't have closing hours, they just run out of food.

This promises to be a compelling and truly educational Scientific Program. APM President Steve Epstein, MD, FAPM, has chosen a conference theme of "Brain, Mind and Body: Why Every PM Psychiatrist Should Care About Neuroscience". Enhanced knowledge of clinical neuroscience can greatly improve assessment and treatment of the many PM patients with complex neuropsychiatric conditions. The meeting will include plenary sessions from neuroscience experts, practical sessions on the treatment of neuropsychiatric patients, and additional content to educate attendees about the latest findings in neuroscience relevant to the day-to-day practice of Psychosomatic Medicine. Annual Meeting Chair Jeff Huffman, MD, FAPM, working with an extremely dedicated and talented Annual Meeting Committee, has labored for the last year to realize Dr. Epstein's vision.

Here's a preview of what you can experience at the 2016 APM Annual Meeting:

- ★ An all-day preconference "Essentials of Psychosomatic Medicine" course, featuring 11 expert speakers teaching the most up-to-date information in core topics; in addition, we are offering eight skills-based courses for a more in-depth exploration of challenging areas of Psychosomatic Medicine
- ★ A Wednesday evening special session, tackling the controversy about whether collaborative care can actually be implemented in the real world, "Collaborative Care: Pipeline or Pipe Dream?" features Kurt Kroenke, MD, Michael Sharpe, MD, FAPM, and Peter Shapiro, MD, FAPM, with Carol Alter, MD, FAPM, moderating
- ★ The next three days will be filled with novel, practical, and exciting content crossing all areas of PM. Three plenary speakers highlight the agenda: Mark Hallett, MD, will showcase his innovative work on the pathophysiology of functional movement disorders, which will include his fascinating neuroimaging research in patients with these conditions. Andrew Miller, MD, will discuss work on the emerging role of the immune system in depression, with data from his neuroimaging and biomarker research. Stuart Yudofsky, MD, will provide a practical lecture utilizing his many years of research and clinical work in neuropsychiatry in his session on "Advanced Management of Agitation and Aggression in Patients with Neuropsychiatric Disorders"

2016 ANNUAL MEETING

- ★ Other special invited sessions include a plenary debate on Saturday between Ted Stern, MD, FAPM, and Jose Maldonado, MD, FAPM, on “Controversial Topics in Clinical PM,” moderated by APM Councilor Christina Wichman, DO, FAPM. They will debate on delirium, alcohol withdrawal, chronic fatigue syndrome and a mystery topic selected by *you*, the participants! Finally, an invited symposium on Friday on “Neuropsychiatric Manifestations of Infectious Disease” from experts Susan Swedo, MD, and Brian Fallon, MD, which will focus on Lyme disease, PANDAS, and related syndromes
- ★ 160 scientific posters; 11 oral paper sessions, including the Webb Fellows’ presentations; 66 general sessions
- ★ Myriad social and networking events to promote networking opportunities for both experienced and new meeting attendees
- ★ Up to 30 hours of CME credit that can be earned over the four days of the meeting.

With hundreds of abstract submissions, the competition for a place on the program was intense. We have selected the very best that will offer you a wealth of ideas and a cornucopia of cutting-edge research in venues ranging from plenaries and a poster session, to general sessions, and concurrent paper presentations.

We look forward to engaging with you in this compelling and mind-expanding program, the pinnacle of APM’s year, a testimony to the vitality of our organization and its importance in our professional lives.

ACCME Accreditation Statement

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education through the joint providership of The Medical College of Wisconsin and the Academy of Psychosomatic Medicine. The Medical College of Wisconsin is accredited by the ACCME to provide continuing medical education for physicians.

AMA Credit Designation Statement

The Medical College of Wisconsin designates this Live Activity for a maximum of 30.00 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Hours of Participation for Allied Health Care Professionals

The Medical College of Wisconsin designates this activity for up to 30.00 hours of participation for continuing education for allied health professionals.

Learning Objectives

At the end of this meeting, participants will be able to:

- ★ Apply patient outcomes research findings to clinical care scenarios for persons with comorbid psychiatric and general medical conditions.
- ★ Approach the hospitalized, demoralized patient with bedside therapy techniques.
- ★ Appreciate the importance of patients' stories – their psychosocial narratives – in tailoring individualized treatment plans responsive to their personal needs.
- ★ Define the intersection of communication in Psychosomatic Medicine and professional formation
- ★ Improve and expand knowledge about improving the medical outcomes of chronically and persistently mentally ill patients.
- ★ Describe the impact of the electronic medical record on doctor to doctor communication.

SHORT GUIDE TO THE BEST OF AUSTIN

(COURTESY OF APM'S LOCAL ARRANGEMENTS SUBCOMMITTEE)

Restaurants

Austin is foodie central!

BBQ

Often served out of a food trailer with a BBQ pit in the back, open until the meat runs out so get there early...

Franklin BBQ: Voted #1 'Best BBQ in the USA' by Bon Appétit and The Texas Monthly. Be prepared for long waits, 3+ hours, but amazing BBQ.

John Mueller Meat Co.: Served out of a food trailer, Anthony Bourdain called it "Absolutely freaking awesome!" Long wait time, but the owner passes out free beers if the line gets extra-long.

La BBQ: 1906 E. Cesar Chavez St. Amazing BBQ. Free beers Friday thru Sunday and sometimes live music. There's a line, but not as long as Franklins.

Kerlin BBQ: 1700 E. Cesar Chavez St.: Delicious BBQ, shorter lines but meat runs out extra early so get here by 11.

Fancy

Vespaio: (\$\$\$) 1610 S. Congress Ave: Great Italian food and wine.

Uchi: (\$\$\$) 801 South Lamar Blvd.: Best sushi in Austin.

Fonda San Miguel: (\$\$\$) 2330 W. North Loop Blvd.: Delicious traditional Yucetecan and Veracruzano dishes, beautiful traditional ambience with a courtyard in the middle of the restaurant.

Not as fancy

Justine's: (\$\$) 4710 E. 5th St.: Late night French dining with great ambience and bar.

Launderette: (\$\$) 2115 Holly St: Delicious American fare, Austin style, served in converted gas station/laundromat. Also serves brunch.

South Congress Cafe: (\$\$) 1600 Congress Ave.: Daily brunch! With drinks! Voted Best Bloody Mary by the Huffington post.

Getting around/Word of Advice:

- ★ Uber left Austin in a huff but there are still some decent ride-sharing options, including GetMe, Fare, Wingz, Car2Go.
- ★ Taxis are hard to find if you don't start at a hotel.
- ★ If it rains, and people tell you it is flooding, believe them. Stay away from the river when it is raining, even downtown.

Salty Sow: (\$\$) 1917 Manor Rd: American gastropub with a great happy hour. Try the 'crisp chicken thighs' unless you go all out and order the 'milk-braised pork butt'. Michelle Obama stopped here!

El Naranjo: (\$\$) 85 Rainey St: Traditional and delicious Oaxacan cuisine, order the mole.

Swift's Attic: (\$\$) 315 Congress Ave (above Elephant Room bar): small shareable plates, eclectic food.

Cheap

Torchy's Tacos: (\$) Local chain, scattered about Austin, Obama stopped here.

Hideout: 617 Congress Ave: Downtown Austin's oldest independent coffee house, with beer, wine, espresso coffee, and food including vegan ice cream. Happy hour every day 5-7 and all night Wednesday.

Mozart's Coffee Roasters: (\$) 3825 Lake Austin Blvd.: Solid coffee and desserts with amazing views on Lake Austin. Great place to read or work.

Home Slice: (\$) 1415 S. Congress Ave: Texas does not do pizza, except for Home Slice. Thin crust pizza, good place to stop if you're shopping on South Congress.

Ramen Tatsu: (\$) 1234 S. Lamar Blvd. or 8557 Research Blvd: Japanese soul food, Time Out voted it one of 'Best Ramen in America'.

Food trucks: Lots of great food trucks, including East Side King (by guy who won Top Chef), Voodoo Donuts, Vera Cruz for tacos, Burro's Grilled Cheese Truck, Patrizi's, and many more....

SHORT GUIDE TO THE BEST OF AUSTIN

Music

Elephant Room: 315 Congress Ave: Great cocktails and ambience in a historic jazz club downtown.

Continental Club: 1315 S. Congress Ave: Famous club that features rock, country and blues act. Great music anytime.

Saxon Pub: 1320 S. Lamar Blvd.: Great live music.

Broken Spoke: 3201 S. Lamar Blvd: Historic country western dance hall serving beer and chicken fried steak.

Bars

East 6th street is a good place for bars, Rainey St also has good nightlife.

Whisler's Cocktail Bar: 1816 E. 6th St.: Rustic ambience, great cocktails and outdoor patio with occasional live music.

Elephant Room: 315 Congress Ave: Great cocktails and ambience in a historic jazz club downtown. Start with dinner at Swift's Attic upstairs.

Driskill Hotel Bar: 604 Brazos St: Hotel bar located in famous hotel founded by cattle baron in 1886, with great ambience and live music.

Cheer Up Charlie's: 900 Red River St: LGBTQ bar, with indoor/outdoor space, dance parties and drag shows galore.

Entertainment

Esther's Follies: 525 E. 6th St: Modern day Vaudeville theatre, with magic shows, performance art, political satire, and musical acts for grownups.

Activities for Families

Austin Nature and Science Center: Kid friendly strolls and wading, rescued animals to check out, a dino pit where kids can excavate giant dinosaur bones or just play in the sand.

Austin Zoo: 10808 Rawhide Trail: A zoo made up of rescued creatures, everything from lions to wolves to pigs. You can feed the goats, ride a little train or wander the grounds. Bring your own picnic.

Activities for Everyone

South Congress St. has lots of great shopping.

Zilker Park: Walking trails along the river including the start of the 8-mile Barton Springs Greenbelt Trail, as well as great playgrounds, the Zilker Zephyr-a scenic train ride- and a 9-hole disc golf course. Rent a canoe or kayak at Zilker Park Boat Rentals and go turtle spotting.

Mexican-American Cultural Center: 600 River St: Exhibits and events that explore Mexican-American arts and heritage.

Blanton Museum of Art: 200 E. Martin Luther King Blvd.: Small but beautiful contemporary art museum on the University of Texas.

Austin Detours: Several hour food truck crawl as well as many other Austin tours.

Stubb's BBQ Gospel Brunch: 801 Red River St: Buy tickets well ahead for Sunday Gospel Brunch.

Other fun things to do

Go walking, running or biking on the greenway along the Colorado River.

Go kayaking, canoeing, or paddle boating on the Colorado River.

Rent bikes from Mellow Johnny's Bike Shop.

Help keep Austin weird!

Supporting the Mission of the Academy of Psychosomatic Medicine

In June 2009, the APM Council created a 501(c) (3) charitable, education, and scientific foundation with the primary purpose of supporting the Academy's education and research programs and activities through fundraising. This organization is called the Foundation of the Academy of Psychosomatic Medicine (fAPM).

Annual Funding Campaign

Join us as we kick off our Annual Funding Campaign! ALL contributions, regardless of size, will help us achieve our commitment to future leaders in our field and ensure our continued impact as we move the cause of integrated care forward.

Having full participation sends a strong message about our collective commitment to our mission, enabling us to solicit larger grants from individuals and institutions that have interest in our work. And your gift is tax-deductible!

Educational Mission

The Foundation of the Academy of Psychosomatic Medicine supports the Academy's commitment to:

- Fostering ongoing career development and recognizing significant contributions to the field, through endowed funds like the Lipsitt Award
- Developing leaders in Psychosomatic Medicine, by supporting programs like the Webb Fellowship, which provides younger members with mentorship and opportunities for leadership
- Supporting the academic growth and development of trainees through programs like the Trainee Travel awards, which provide funding for selected trainees to attend the annual meeting
- Support for ongoing access to major researchers in our field for education and mentorship of trainees and early career members. In the spirit and honor of Wayne Katon, whose career was dedicated to clinical research, we invite you to support our newly established Research Support Fund

Donations

Both the Academy and the Foundation thank you for your generous contribution and support. Help us reach our Annual Funding Campaign goal: donations may be made online at apm.org/foundation and click **Donate Now**.

A Guide to Using the APM 2016 App

STEP 1

Download the "APM 2016" app from the Apple App Store or Google Play Store. To start using the app, select "Login" and enter your username (your email) and password (emailed to you).

If you previously created an account using the **APM 2016 Online Planner**, log in with the same username (your email) and password. Don't know your password? Click on "Forgot your password?" to have it emailed to you.

STEP 2

Find the presentation you want quickly and interact with the presentation slides by drawing on slides and highlighting text. Use the note-taking mode to type your notes next to each slide. You will need an internet connection to download all slides but can later view them and take notes on them without one. Access/Print the notes you take by clicking "My Notes" on the main screen or "Online Personal Summary" in the sidebar menu.

STEP 3

If you don't have a mobile device that is able to download the app, you can use your **laptop**. As long as you have an internet connection, you can take notes on presentations through your laptop, or access slides following the conference on a laptop or desktop via the following website link: tinyurl.com/APM2016

If you already have an account on a mobile device, use the same account information that was emailed to you. Otherwise follow the steps to create an account.

APM DISCLOSURE REPORTING

The Academy of Psychosomatic Medicine requires disclosure by all program planners and presenters of CME activities of any financial or other affiliation with commercial organization(s) that may have a direct or indirect interest in the subject matter of the educational activity. A “financial interest” may include, but is not limited to: being an employee and/or being a shareholder in the organization; being on retainer with the organization; or having research or honoraria paid by the organization. An “affiliation” may include holding a position on an advisory committee, speakers’ bureau or some other role or benefit to a supporting organization.

APM administers a process by which potential conflicts are identified and resolved prior to the educational activity. Furthermore, the audience of each session must be informed of the presenters’ or program planners’ affiliations with every commercial interest by acknowledging such in the printed program and orally or visually (incorporated into slide presentation) at the start of a session.

APM only identifies active disclosure information, meaning that the absence of a speaker from this list indicates that neither they, nor an immediate member of their family have any financial relationships or potential conflict of interest to disclose.

Well-Being Therapy

**Treatment Manual and
Clinical Applications**

Well-Being Therapy (WBT) is the psychotherapeutic approach developed by Giovanni Fava, a world-renowned psychiatrist and psychotherapist. WBT is an innovative strategy that is based on monitoring psychological well-being, whereby the patient progressively learns how to make it grow. This type of therapy has enjoyed much success and is increasing in popularity around the world. It is therefore not just of interest to professionals but also to counselors, educators and patients.
