Guide to Using the Mobile App

1

Download the “**APM 2017 Annual Meeting**” app from the Apple App Store or Google Play Store.

2

Once downloaded, click “**Login**”. Then, enter your username (email address used to register for APM 2017) and the access key that were emailed to you from Support@EventScribe.com. If needed, click **Forgot Password** in the top right of your login screen.

What can you do with your app?

- ✘ Draw or highlight important points on presentation slides.
- ✘ Take notes on slides while in note-taking mode.
- ✘ Access/print out your notes by clicking “My Notes” on the home screen or “Online Personal Summary” in the sidebar menu.
- ✘ To download slides, you will need an Internet connection, but you can view them later and take notes later without one.

3

Want to use your laptop or desktop computer? As long as you have an Internet connection, access slides through tinyurl.com/APM2017. If you already have an account on a mobile device, use the same login and access key. Otherwise, click “Login” in the upper right corner, then “Sign Up” on the next page.

Welcome To APM's

On behalf of the Academy of Psychosomatic Medicine, we're happy to welcome you to APM 2017 in Palm Springs, California. APM President Bob Boland, MD, FAPM, has chosen the conference theme of "Addressing Current Dilemmas in Psychosomatic Medicine: Consultants Consulting the Experts".

Clinicians in psychosomatic medicine/consultation-liaison psychiatry face a wide breadth of conundrums and controversies in all areas of practice. Accordingly, to address current dilemmas in PM/C-L psychiatry, this year's program will offer an extensive range of presentations including, but not limited to: inpatient consultation-liaison, collaborative care, psychiatric emergencies, maternal-fetal medicine, child C-L, addiction, forensics, ethics, and other topics relevant to clinicians in psychosomatic medicine settings. The format of plenary sessions has been restructured with a focus on shorter presentations by carefully selected subject matter experts. Chair Lisa Seyfried, MD, working with a dedicated and talented Annual Meeting Committee, has labored for the last year to realize Dr. Boland's vision.

Here's a preview of what you can expect to experience at the 2017 APM Annual Meeting:

- ✘ An all-day preconference "Updates in Psychosomatic Medicine" course, featuring 11 expert speakers reviewing new and emerging issues in the field; in addition, we are offering eight skills-based courses for an in-depth exploration of challenging areas of Psychosomatic Medicine
- ✘ A special Wednesday evening "just-in-time" workshop, the topic and speakers for which was announced in the week preceding the meeting.
- ✘ Seven TED-style plenaries by experts who will get straight to the point exploring clinical issues:
 - Dr. Helen Kales, professor of psychiatry and director of the Program for Positive Aging at the University of Michigan.
 - Dr. Sheldon Benjamin, interim chair, Department of Psychiatry; director of neuropsychiatry, and professor of psychiatry and neurology at the University of Massachusetts Medical School.
 - Dr. Marcia Verduin, associate dean for students at the University of Central Florida.
 - Dr. Iqbal "Ike" Ahmed, faculty psychiatrist at Tripler Army Medical Center in Honolulu and president of the American Association of Geriatric Psychiatry.
 - Dr. Maryland Pao, clinical director of the Mental Health Intramural Research Program at the National Institutes of Health.
 - Dr. Richard Goldberg, professor of psychiatry and human behavior at The Warren Alpert Medical School, Brown University; psychiatrist-in-chief at Rhode Island Hospital and The Miriam Hospital; and senior vice-president for the psychiatry and behavioral health service line at Lifespan.
 - Dr. Robert Carney, the 2017 Wayne Katon Research Award winner, professor of psychiatry, Washington University School of Medicine

2017 Annual Meeting

- ✘ Eleanor & Thomas P. Hackett Memorial Award winner Gregory Fricchione, MD, FAPM, on Thursday will deliver a talk on “Serendipity and Psychosomatic Medicine”, while on Friday Don R. Lipsitt Award Workshop winner Nancy Byatt, MD, FAPM, will be presenting “From Research to Action: Using Science to Inform Maternal Health-Related Public Policy”.
- ✘ We also are pleased to see the return of our plenary debate on Saturday, this year between Rebecca Brendel, MD, JD, FAPM, and Dave Gitlin, MD, FAPM, and moderated by Josepha Cheong, MD. They will be tackling three difficult cases based on challenging dilemmas people are currently facing in practice.
- ✘ 135 scientific posters; 38 oral papers, including the Webb Fellows’ presentations; 62 general sessions
- ✘ More networking time and social events to build your connections with PM/C-L professionals—including longer breaks, outdoor lunches taking advantage of some of the High Desert’s best weather of the year, the welcome reception at Greta Garbo’s La Casa, a champagne toast reception on Friday celebrating the Academy’s award winners, and the return of the Academy’s tennis tournament (open to all skills levels)
- ✘ Up to 32.25 hours of CME credit that can be earned over the four days of the meeting.

With hundreds of abstract submissions, the competition for a place on the program was intense. We have selected the very best that will offer you a wealth of ideas and insights into cutting-edge research in venues ranging from plenaries and a poster session, to general sessions, and concurrent paper presentations.

We look forward to engaging with you in this compelling and mind-expanding program, the pinnacle of APM’s year, a testimony to the vitality of our organization and its importance in our professional lives.

WAKE UP WITH APM NEWS

The screenshot shows the APM News website. At the top, it says 'APM News' and 'ACADEMY OF PSYCHOSOMATIC MEDICINE'. Below that, there's a section 'IN THIS ISSUE' with links to 'Delegates Set Content for Quickfire Speakers', 'Let's Teach Trainees to Think Out Loud', 'Guest Blog: Preparing for APM 2017', 'The Delegate Resource List', and 'Jobs at APM Career Center'. The main article is 'DELEGATES SET CONTENT FOR QUICKFIRE SPEAKERS' by Maryland Pao, MD, FAPM. It mentions a crowdsourcing survey to determine subject areas for plenary speakers, with 136 responses by the early-September deadline. A 'Read More' button is below the article. To the left, there's a sidebar with links to 'Annual Meeting', 'Careers', 'APM Journal', and 'APM Website'. At the bottom, there's a section 'CAN'T MISS POSTERS AT APM 2017' with a photo of a poster session and a date 'Nov 8-11, 2017'.

Supporting the Mission of the Academy of Psychosomatic Medicine

In June 2009, the APM Council created a 501(c) (3) charitable, education, and scientific foundation with the primary purpose of supporting the Academy's education and research programs and activities through fundraising. This organization is called the Foundation of the Academy of Psychosomatic Medicine (fAPM).

Annual Funding Campaign

Join us as we kick off our Annual Funding Campaign! ALL contributions, regardless of size, will help us achieve our commitment to future leaders in our field and ensure our continued impact as we move the cause of integrated care forward.

Having full participation sends a strong message about our collective commitment to our mission, enabling us to solicit larger grants from individuals and institutions that have interest in our work. And your gift is tax-deductible!

Educational Mission

The Foundation of the Academy of Psychosomatic Medicine supports the Academy's commitment to:

- Fostering ongoing career development and recognizing significant contributions to the field, through endowed funds like the Lipsitt Award
- Support for ongoing access to major researchers in our field for education and mentorship of trainees and early career members.

Donations

Both the Academy and the Foundation thank you for your generous contribution and support. Help us reach our Annual Funding Campaign goal: donations may be made online at apm.org/foundation and click **Donate Now**.

In the spirit and honor of Wayne Katon, whose career was dedicated to clinical research, we invite you to support our newly established Research Support Fund

How to Complete your Session Evaluations to Claim Your CME Credits

Access the Evaluation process using one or both of the following:

- ✘ In the meeting app, look for the **Evaluation** button on the home screen, or footer menu
- ✘ On your PC or Mac, visit tinyurl.com/APM2017-eval and log in using the same credentials you used to log into the meeting app

Not using the app, or can't find the credentials emailed to you? Use the **Forgot Password** feature on the log-in page to request your Access Key. You must use the email address you used to register for the meeting for this to work.

The Evaluation process will present you with three tasks to complete to obtain your CME certificate:

1. Complete your profile: identify learner type, subspecialty and, for ABPN records verification purposes, your date of birth. This last item is optional.
2. Select the sessions you attended for which you are claiming CME credit. For each session you claim, you will be asked to complete an evaluation of the session content and each speaker. Remember to click "Submit"! An evaluation must be completed for you to receive your CME credit.
3. Complete the meeting evaluation.

Once all three are done, you can print, download, and/or email yourself your CME document.

The Evaluation process is open through Sunday, December 17. You must complete your evaluations by this date in order to obtain your CME credits.

COMPLIMENTARY PROFESSIONAL PORTRAITS OFFERED ON FRIDAY

APM is pleased to offer all 2017 registrants a *complimentary* business (head-and-shoulders) portrait on Friday, November 10, from 8:00 am-4:00 pm, in the Flores Foyer. Dress your best from your upper body up for your portrait, which will be taken by a professional photographer. Your digital portrait will be emailed to you after the meeting. You are also invited to be part of the APM 2018 marketing campaign that will highlight the amazing C-L psychiatric community, and we ask your consideration in loaning us your image.

APM Disclosure Reporting

The Academy of Psychosomatic Medicine requires disclosure by all program planners and presenters of CME activities of any financial or other affiliation with commercial organization(s) that may have a direct or indirect interest in the subject matter of the educational activity. A “financial interest” may include, but is not limited to: being an employee and/or being a shareholder in the organization; being on retainer with the organization; or having research or honoraria paid by the organization. An “affiliation” may include holding a position on an advisory committee, speakers’ bureau or some other role or benefit to a supporting organization.

APM administers a process by which potential conflicts are identified and resolved prior to the educational activity. Furthermore, the audience of each session must be informed of the presenters’ or program planners’ affiliations with every commercial interest by acknowledging such in the printed program and orally or visually (incorporated into slide presentation) at the start of a session.

APM only identifies active disclosure information, meaning that the absence of a speaker from this list indicates that neither they, nor an immediate member of their family have any financial relationships or potential conflict of interest to disclose.

Well-Being Therapy

**Treatment Manual and
Clinical Applications**

Well-Being Therapy (WBT) is the psychotherapeutic approach developed by Giovanni Fava, a world-renowned psychiatrist and psychotherapist. WBT is an innovative strategy that is based on monitoring psychological well-being, whereby the patient progressively learns how to make it grow. This type of therapy has enjoyed much success and is increasing in popularity around the world. It is therefore not just of interest to professionals but also to counselors, educators and patients.
