Integrating Care and Evidence Across the Lifespan

CLP 2023

Disclosure: Kristin Beizai, MD

With respect to the following presentation, in the 24 months prior to this declaration there has been no financial relationship of any kind between the party listed above and any ACCME-defined ineligible company which could be considered a conflict of interest.

Background

- C-L Psychiatry has produced new innovative models of care delivery (collaborative care, proactive consultation) and leads in interdisciplinary team-based care
- Interdisciplinary Education Subcommittee of ACLP:
 - 2019 ACLP Interdisciplinary Team Member Guide: Understanding Roles, Training and Collaboration Strategies
 - 2022 Survey of C-L Psychiatry looked at interdisciplinary composition + educational needs
 - 42% of inpatient C-L Psychiatry Services with APP team members
 - 57% of expected new hires in upcoming year are for non-physicians
 - 2022-2023 Development of APP Educational Event at ACLP
 - APP Advisory Group to Subcommittee formed
 - Survey developed and shared more broadly with APP's (topics of interest, preferred educational content)
 - Didactics and interactive cases developed, and marketing conducted
