Helpful Hints

Guide to Using the Mobile App

- 1 Download the “**ACLP Events**” app from the Apple App Store or Google Play Store.
- 2 Once downloaded, open the app, select CLP 2019, then Login using the credentials sent to you from support@eventscribe.com: your username is the email used to register for CLP 2019; the access key is your password. Click ‘Forgot Password?’ in the top right of the login screen if you can’t find the original notification email.

What can you do with your app?

- Draw or highlight important points on presentation slides.
 - Take notes on slides while in note-taking mode.
 - Access/print out your notes by clicking “My Notes” on the home screen or “Online Personal Summary” in the sidebar menu.
 - To download slides, you will need an Internet connection, but you can view them later and take notes later without one.
- 3 Want to use your laptop or desktop computer? If you have an Internet connection, access slides through tinyurl.com/CLPFall2019. If you already have an account on a mobile device, use the same login and access key. Otherwise, click “Login” in the upper right corner, then “Sign Up” on the next page.

Looking for more detailed program information? In order to streamline the printed program we have moved a lot of information to the app. Download it to your phone or tablet (or both) to access more information on award winners, our exhibitors, speakers and more.

How to Complete Your Session Evaluations to Claim Your CME Credits

Access the Evaluation process using one or both of the following:

- In the meeting app, look for the Evaluation button on the home screen, or footer menu
- On your PC or Mac, visit tinyurl.com/CLP2019-eval and log in using the same credentials you used to log into the meeting app

Not using the app, or can’t find the credentials emailed to you? Use the Forgot Password feature on the log-in page to request your Access Key. You must use the email address you used to register for the meeting for this to work.

The Evaluation process will present you with three tasks to complete to obtain your CME certificate:

- 1 Complete your profile: identify learner type, subspecialty and, for ABPN records verification purposes, your date of birth. This last item is optional.
- 2 Select the sessions you attended for which you are claiming CME credit. For each session you claim, you will be asked to complete an evaluation of the session content and each speaker. Remember to click “Submit”! An evaluation must be completed for you to receive your CME credit.
- 3 Complete the meeting evaluation.

Once all three are done, you can print, download, and/or email yourself your CME document. The Evaluation process is open through Sunday, December 15. You must complete your evaluations by this date in order to obtain your CME credits.

ACCME Accreditation Statement

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education through the joint providership of The Medical College of Wisconsin and the Academy of Consultation-Liaison Psychiatry. The Medical College of Wisconsin is accredited by the ACCME to provide continuing medical education for physicians.

AMA Credit Designation Statement

The Medical College of Wisconsin designates this Live Activity for a maximum of 28.5 *AMA PRA Category 1 Credit(s)*™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Hours of Participation for Allied Health Care Professionals

The Medical College of Wisconsin designates this activity for up to 28.5 hours of participation for continuing education for allied health professionals.

Learning Objectives

At the end of this meeting, participants will be able to:

- Apply patient outcomes research findings to clinical care scenarios for persons with comorbid psychiatric and general medical conditions
- Approach the hospitalized, demoralized patient with bedside therapy techniques
- Appreciate the importance of patients' stories – their psychosocial narratives – in tailoring individualized treatment plans responsive to their personal needs
- Define the intersection of communication in Consultation-Liaison Psychiatry and professional formation
- Improve and expand knowledge about improving the medical outcomes of chronically and persistently mentally ill patients; and
- Describe the impact of electronic medical records on doctor-to-doctor communication.
