

Inaugural Advanced Practice Provider (APP) Skills Course & Career Panel

8:00 am - 1:00 pm, Wednesday, November 8 | JW Marriott Austin

COURSE CONTENT

- + A half-day skills course covering essential consultation-liaison psychiatry topics such as delirium, agitation, safety assessment, functional neurologic disorder, and addiction in the medical setting
- + Clinically relevant didactics led by physicians and interactive case discussions co-facilitated by physicians and APPs
- + Longitudinal themes incorporated in case discussions include psychopharmacology, medication safety, liaising and relationship building skills, identifying one's scope, and utilizing team and ACLP resources
- + An APP networking lunch and career panel, bolstering the peer and mentoring networks for successful C-L Psychiatry practice.
